3C CONFERENCE 2009

WHOLE OF GOVERNMENT AND SYSTEM APPROACHES
IN SITUATIONS OF CONFLICT AND FRAGILITY

19–20 MARCH 2009, GENEVA, SWITZERLAND

The session explores the scope for a Whole of Government Approach within national governments, in the light of the Paris Declaration on Aid Effectiveness as well as the Accra Agenda for Action. It takes stock of how different governments adapt to a Whole of Government approach and examines the shared or conflicting interests of different policy sectors. How does the constraint of limited financial and human resources affect decision making and priority setting? How do different policy sectors plan to engage in the establishment of international peace- and state-building goals as called for in the Accra Agenda for Action? Do the outcomes of the Doha meeting on financing for development create new opportunities?
